Graded Exercise Overview

Single-person activity

Bring-your-own idea or "socratic-light"

Delivery format: Grails app in github

Graded Exercise Timeline

- 24.4. - 27.4. Commit proposal (template)
- 1.5. Me accepting proposal (git commit)
- 29.5. Delivery Deadline
- 12.6. Grading via git commit

Single User Activity, allowed

Using code from course material

Using code from w3schools / tutorials

Using external dependencies

Discuss with others, getting help

Clear Demarcation

**EXTERNAL CODE
CAN BE USED
BUT MUST BE
CLEARLY MARKED**

External Code Markers

As appropriate:

- comments in code
- extra commit

Include the word "EXTERNAL" and the origin

Grading Scheme

See the spreadsheet for details.

Max. 50 points

Grade: $1.0 + \text{points}/10$

Cheating attempt $\Rightarrow 1.0$

Use Git Wisely

Commit early, commit often

Putting all of your solution in a single commit would be extremely suspicious
